

## EC – Declaration of Conformity for machinery

(Directive 2006/42/EC on machinery, Annex II-1-A)

**Manufacturer:** Rosenberg ventilatoren-klimaatechniek,  
Elandlaan 8,  
3734 CP Den Dolder

herewith declares that the air handling units, intended for movement and treatment of air, as identified below,

| Designation              | Model          | Type  | Specifications  |
|--------------------------|----------------|---|---|
| <i>Air handling unit</i> | <i>Liberty</i> | <i>1010 up to 4060<br/>(single, DV, DH)</i> | <i>See technical specification<br/>associated with QR-code on<br/>product label</i> |

in the configuration as placed on the market by Rosenberg, are in conformity with the relevant provisions of:

- Directive 2006/42/EC on machinery;
- Directive 2004/108/EC relating to electromagnetic compatibility;
- Directive 2009/125/EC establishing a framework for the setting of ecodesign requirements for energy related products;

and resulting from this Directive, are in conformity with

- Commission Regulation (EU) N0. 1253/2014 with regard to ecodesign requirements for ventilation units

Furthermore we declare that reference performance testing is conducted on a regular base in accordance with harmonised standard EN 13053.

This declaration of conformity is solely legitimate if the units are mounted and installed in accordance with the associated mounting and installation instructions and will operate independently and are utilised for the intended use of the product.

Manufacturer is not responsible for any additions or modifications made to the unit by third parties without prior authorisation.
