OUR STRENGTH, YOUR BENEFIT

Benefits of composite air handling units are high corrosion resistance, hygienic interior, great thermal insulation (T1), ultra lightweight and cold bridge free (TB1).

HYGIENIC
EASY CHEMICAL CLEANING

COLD BRIDGE FREE
EN 1886 T1/TB1

LIGHTWEIGHT
40% LESS WEIGHT

CORROSION IMMUNITY
CX (C5I/C5M)

SUSTAINABLE
ULTRA LOW CARBON FOOTPRINT

ROBUST
WALL THICKNESS 70 MM

Fully closed vapour tight panel with durable double sealing.

Cold bridge free integrated locks.

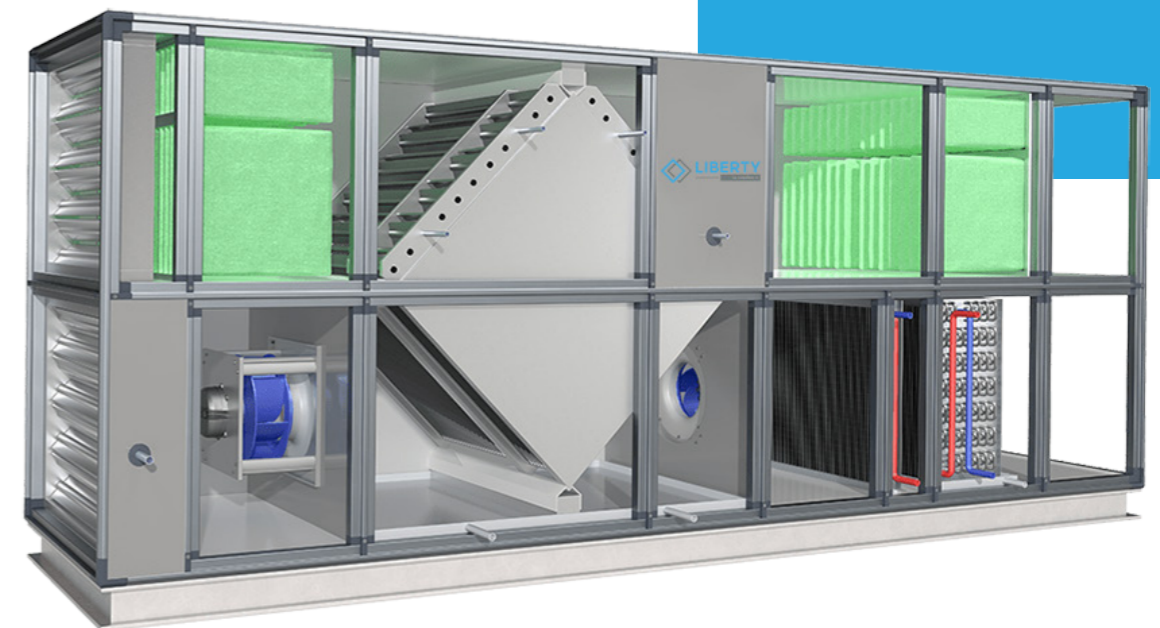

Smooth PET inner wall. Easy cleanable.

SPECIFIC SOLUTIONS IN EVERY BRANCHE

Liberty air handling units are the best of both worlds.

High performance components in an outstanding AHU casing to meet the highest energy requirements, or non corrosive composite components to meet the highest corrosion class. All in one and the same Liberty Composite Air Handling unit.
